

NICHOLAS ARSENAULT

Livonia, MI — +1.248.943.6458 — nickarsenault18@gmail.com — [Portfolio](#)

PROFESSIONAL SUMMARY

Field-oriented technical professional with a B.S. in Computer Science and hands-on experience in industrial warehouse operations, equipment handling, and mechanical, electrical and software troubleshooting. Proven ability to diagnose operational problems, interpret technical requirements, and work independently in fast-paced environments. Strong customer-focused mindset with experience supporting internal stakeholders and maintaining safety standards. Prepared for extensive travel with a valid passport and clean driving record. Familiar with high level system diagnostics and scripting. Interested in robotics concepts, including mapping and localization.

Seegrid

Field Operations Engineer

Detroit, MI
May 2026–Present

- Operate and troubleshoot 3+ models of autonomous trucks (Currently PIT certified) in different volume/stress environments based on need
- Electrical, mechanical, and software troubleshooting in short time frames with limited information at times, reading electrical schematics, parts manuals
- Route training autonomous tow and fork trucks during production, retrains, CAD mapping, and planning
- Customer service, training and deescalation of project managers, line workers, engineers, supervisors, and outside contractors
- Preventive maintenance, qualifications, validations, return-to-service, following safety procedures and guidelines
- Escalated diagnostics using SSH, Linux, Putty, Flexisoft/Safety Designer, manual programming via the GOI, Jira, Salesforce, and Fleet Central
- Handling of expensive replacement and warranty parts, toolbag/tools, unreleased software versions, sensors, etc.
- Heavy travel including 5+ hour drives, flights, multiple sites in a day. Passport is also necessary, as we travel to Mexico and Canada.

PROFESSIONAL EXPERIENCE

Camfil Inc.

Industrial Operations Specialist

Livonia, MI
Aug 2023–May 2026

- Operate and troubleshoot material handling equipment (Was Forklift certified) in a high-volume industrial environment
- Diagnose and resolve order, inventory, and workflow issues to maintain operational efficiency and meet production deadlines
- Interpret technical order specifications and documentation for custom-built industrial filtration
- Collaborate cross-functionally with logistics, production, and customer-facing teams to resolve discrepancies and improve processes
- Maintain detailed accuracy in inventory tracking, order fulfillment, and internal reporting systems
- Uphold strict safety standards in a busy warehouse setting, including equipment operation and hazard awareness
- Adapt quickly to changing priorities and independently manage workload with minimal supervision

Wayne State University – Student Center Operations

University Operations Specialist

Detroit, MI
August 2019–July 2023

- Supported daily operations for campus events including executive meetings, large gatherings, and student functions
- Set up and configure equipment including projectors, laptops, AV systems, and cabling for reliable event execution
- Performed physical setup and tear-down of event spaces, including staging, seating, and technical equipment
- Operated with full-access credentials and facility keys, maintaining responsibility and security awareness across campus
- Acted as a point of contact during events to troubleshoot issues and ensure smooth operation in real time
- Maintained cleanliness, organization, and readiness of event spaces under tight timelines

AREAS OF EXPERTISE

Technical: Python, Java, C++, Linux (CLI navigation, basic diagnostics), Bash/PowerShell (basic), Software Troubleshooting

Systems: Git, GitHub, AWS, Docker, Firebase, Basic Networking Concepts

Mechanical & Electrical: Material Handling Equipment, Basic Tooling (ratchets, drivers), Introductory Electrical Concepts, Multimeter Familiarity

Industrial & Field Concepts: Exposure to System Networking, Grid Mapping, SLAM, System Communication Concepts

Field Operations: Customer Support, Issue Resolution, Safety Compliance, Independent Work, Travel Readiness, Technical Documentation and Reporting

RELEVANT CERTIFICATIONS

- HiLo / Forklift Certification – Current employer
- MDOT Certification – Current employer
- Valid Chauffeur's License (MI)
- Valid U.S. Passport
- Python, Linux, C++ – Codecademy
- CISSO – Mile2 (Cybersecurity)
- Unreal Engine 5 Development – Udemy

TECHNICAL PROJECTS

RE:PLAY – Windows Arcade Collection

[VIEW HERE](#)

Developed and deployed a multi-game Windows application with a focus on reliability and usability. Diagnosed and resolved runtime issues during development, improving stability and user experience.

Portfolio Website – Static Portfolio Site

[VIEW HERE](#)

Designed and deployed a responsive portfolio website using modern web technologies. Focused on performance, usability, and clean interface design.

EDUCATION

Wayne State University
B.S. in Computer Science
GPA: 3.4

Detroit, MI
2019–2023
